Our Clients

Tan Chin Teck

Executive Director, Transfer Pricing
BDO Tax Services Sdn Bhd

Our primary use of SPEEDA is to conduct benchmarking analysis. SPEEDA plays an important role to cut down our time by providing credible data. Back then, when we are dealing with a large industry case, we used to spend 1 week on research, but now it just takes a few clicks with SPEEDA.

Jansen Gunardi

Vice President, Indonesian National
Pickering Pacific Pte Ltd

It is usually straightforward for us to get the data from the SPEEDA platform. However, we also find it useful that we can engage SPEEDA's Consulting Service team to work with our in-house research team in researching various topics. We think this is a unique SPEEDA offering which helps to enhance the quality of our research.

M Zamri A Raman

Sr Research Consultant
Consulting Services, Business & Technology Advisory
Malaysia Debt Ventures Berhad

SPEEDA helps us get through the complexities by having all information on a single platform. It has been helping our daily research tasks in various ways, and it has indeed become a must-have database for the entire organisation.

Market Research Company
Singapore

Most financial database tools are not focused on the Asia market. SPEEDA has the best coverage for Southeast Asian companies and industries including emerging market data.

If we are doing research for Indonesia, Malaysia, Singapore, or other Southeast Asian markets, SPEEDA is the go-to database for primary screening.

Coverage and Features

Our features

Public and Private Company Data

In addition to global coverage of public listed companies, SPEEDA provides extensive coverage of private companies' information in Asia, specifically ASEAN-6 region. Users can easily screen for companies by defining parameters, such as location, industry classification, financials and keywords.

On Demand Consulting Service

More than just a regular help desk, our SPEEDA consultants go the extra mile to ease the research challenges faced by our users via helping with niche research requests so that they can focus their time on better data-driven decision making and analysis. Examples include detailed company profiling, more complex target screening, and industry research.

And more...

Access to historical and current M&A and fundraising deals, with advanced filter options to create deal list by defining parameters such as deal type, deal size, deal parties, amongst others. Our News function allows users to monitor news and identify emerging business opportunities.

Proprietary Industry Reports

SPEEDA's industry research reports provides users with fundamental understanding of hundreds of industries ranging from major to niche sectors, including new tech-focused trends. Reports, organized by country (Asia-focused), are structured to cover key information such as market size, value chain, key regulations, competitive landscape and more.

Trend Report

With the business environment constantly changing, new players are continuously emerging, and simply reading the news does not give us the complete picture. Our Trend Reports help users stay abreast of global technology trends that are driving the shifts in the business landscape today. With essential knowledge such as monetization, regulatory framework and future prospects, users can apply them effectively in their business and strategy planning.

The screenshot displays the SPEEDA web application interface. At the top, there is a search bar with the text "Search Companies, Industries, News, M&A Deals, Reports, Statistics and Trends". Below the search bar, the "Find Companies" section is visible, featuring various filters and search options. The "Company List" section shows a table of companies with columns for SPEEDA Company ID, Ticker, Status, Company Name, and SPEEDA Industries. The table lists several companies, including Walmart Inc, Amazon.com Inc, Apple Inc, China Petroleum & Chemical, CVS Health Corp, and others. The interface also includes navigation elements like "Home", "News", "Reports", and "Tools" on the left sidebar.

SPEEDA Company ID	Ticker	Status	Company Name	SPEEDA Industries
SPD04705GJGJ8T	WMT	US90	Walmart Inc	General Merchandise Stores
